Drilling

Trinity Elton Jones

When it was time for new roofs and to address waterproofing needs of the Elton and Jones Dormitories at Trinity College, Cenaxo was hired to plan and execute the project.

With all Cenaxo projects, safety is one of our primary objectives. On this project, Trinity valued our carefully detailed safety plan as students, college employees, and children in summer camps were on campus and near the construction site. By maintaining strict adherence to the safety plan, the Trinity Project was completed with zero incidents.

As the General Contractor for this project, we were able to coordinate with our trade partners and deliver the work on time and on budget for Trinity College.
